

POLLUTION A NEVER ENDING STORY PROJECT 2019-2020

We want the students to get awareness of the dangers of pollution and we want them to think how they can contribute to limit the dangers offering possible solutions to the various problems caused by wrong behaviors.

Öğrenciler çevre kirliliğinin sebeplerini ve küresel ısınmaya bağlı kutup buzullarının erimesini incelediler. Bu çevre sorunları ile ilgili farkındalık kazanıp çevreci bir anlayış kazandılar.
